

EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (“REACH Regulation”)

Further to your enquiry in respect of the articles that we supply to you, we would like to inform you that we have been conducting a communication and due diligence exercise within our supply chain to ensure that we meet our obligations under REACH.

We are closely monitoring the SVHC candidate list and are aware that the ECHA Member State committee is adding continually new substances on updated SVHC Candidate List. [Last Update on 25th June 2020]

<http://echa.europa.eu/web/guest/candidate-list-table>

As an ongoing due diligence exercise, we continually undertake a detailed review of the material content across our full product range.

At present **we can confirm that none of the chemicals on actual SVHC list are present** in our products. We are, however, also aware that, as ECHA adds any new substance to the SVHC list in the future, we have a continuing obligation to keep ourselves informed of the addition of substances, as well as communicate any impact to our product as necessary in a timely manner that is compliant to the REACH downstream user communication requirement.
